Tuning Element Technologies has received many testimonials from people who are using our Tuning Element products. We have had reports of dramatic reductions and even elimination of many ailments including all types of pain, injuries, respiratory problems as well as reports of increased strength, energy, balance and mental clarity. In most cases, benefits were noticed immediately.

Tuning Element products work to keep the cells of your body in tune like a world-class symphony orchestra.

How do Tuning Element Products Work?

Our products are tuned to the natural harmonic frequency of the Earth. When a Tuning Element bracelet contacts our skin, it works to bring our body in tune with the earth's natural frequency. When we are "out of tune," we are more likely to suffer negative results from free radicals in the body.

Think of a world-class symphony orchestra. Each instrument and each musician must be in tune. When the orchestra performs, each musician is one part of the whole performance. The result is a beautiful song. Like an orchestra, our bodies are made of individual cells that function as a whole person. When we are out of tune, our bodies are not "singing" at their best. Tuning Element bracelets work by restoring harmonic balance so we can "sing," or perform at our best.

Why do our bodies get out of tune?

We live in a fast-paced world of technology. As this technology works to keep us in better and faster communication than ever before, it also produces hidden "pollutants" that we do not see, hear, taste, smell or feel. Electrical magnetic fields (EMFs) and extremely low frequencies (ELFs) are two of these "pollutants." They are created by cell phones, computers, televisions, microwaves, power lines and other electrical devices. The EMFs and ELFs can negatively affect our bodies and disrupt our natural biological processes. In this way our bodies become "out of tune" and weakened.

Tuning Element customers report enjoying many benefits of using our products, including reports of dramatic reduction and even elimination of all types of pain, ailments from injuries and respiratory problems. Our customers also report increased strength, energy, balance and mental clarity. Many benefits were noticed immediately.

Compare the difference between experiencing a world-class Symphony Orchestra and hearing a rag-tag High School Marching Band. Do you want your body to feel and "sound" like the marching band, or like a symphony orchestra?
